

Product Principles

Commercial and Industrial Valves and Actuators

Date / Time:
Wednesday August 28
4pm-5:30pm

Cost \$30 per attendee

Location:
Glenwood Springs
Training Room
0062 County Road 113 Bldg. B
Carbondale, Colorado 81623

Honeywell

This 1-1/2 hour class is taught by a Honeywell factory representative and provides commissioning instruction of the Honeywell Valve and Actuator line.

The first half provides technical detail on the selection and operation of Honeywell Valves.

The second half of the instruction provides a high level view of technical detail related to the setup and operation of Honeywell Actuators.

Upon completion, attendees will be able to choose, wire, install, and commission a Honeywell Valve and Actuator.

SEE YOU THERE!

All attendees must be present for the entire class and pass a commissioning test to receive your training certificate.
