

Product Principles

Honeywell

Date / Time:
Wednesday Sept. 17th
4pm-5:30pm

Location:
Glenwood Springs
Training Room
9062 County Road 113 Bldg. B
Carbondale, Colorado 81623

This 1-1/2 hour class is taught by a Honeywell factory representative and provides commissioning instruction of the Honeywell Valve and Actuator line.

The first half provides technical detail on the selection and operation of Honeywell Valves.

The second half of the instruction provides a high level view of technical detail related to the setup and operation of Honeywell Actuators.

Upon completion, attendees will be able to choose, wire, install, and commission a Honeywell Valve and Actuator.

All attendees must be present for the entire class and pass a commissioning test to receive your training certificate.

SEE YOU THERE!
